With this catalogue I offer for sale a unique choir library, consisting of almost 700 sets of choral or ensemble music, almost all of it sacred Renaissance repertoire; there are a few exceptions, both later sacred music and some secular pieces. The contents fall into several categories

1. Printed editions from my own and many other publishers' catalogues.
2. Photocopies of my own and other editors' manuscript editions, indicated by 'ms'.
3. In a few cases, authorised photocopies of printed music.

The copies have almost all been used on courses and in concerts and are all offered as second-hand, at prices roughly one-third or less of their normal value. Postage or carriage will be charged at cost.

The total sale price of the collection is approximately €12,500, whereas its 'new' value is of the order of €35,000. If an institution wishes to bid for the whole collection, it is offered at the even more reduced price of €11,000. Any offers for the whole library must be received by December 31 2010, otherwise the sets will be sold off singly as listed in the catalogue. Orders are invited for individual items; these will be kept strictly in the order in which they are received; should the collection remain unsold at December 31 2010, individual sets will be sent at once to those who have bid successfully for them.

Postage and packing will be charged at cost; music will be sent as cheaply as possible (printed paper rate) unless you specify otherwise. A purchaser of the entire collection should contact me to arrange carriage: the music is in folders in file boxes, taking a total of 31.2 metres (102 feet) of shelves and occupying 3 cubic metres.

Sets of my own editions (i.e. Editor: Procter, Publisher: Procter) can be increased with new copies, which will be offered at the same price as those in the sale. For example, if there are 24 copies offered at €12 I would charge €15 to provide a set of 30.

It is all music I know and love, and I hope it will go to people who will appreciate it as I have done. The music is supplied as described.

**My catalogue of new published music at [www.Edition-MP.com](http://www.Edition-MP.com) is of course unaffected by this sale of my private choir library.**

The pieces are sorted (a) in alphabetical order by composer, (b) for each composer in alphabetical order of title.

The list is headed by two special categories:

'Anthologies' – collections of pieces by the same composer;

'Collections' – collections of pieces by different composers.

Pieces included in these categories are NOT indexed separately.

Folder	Composer	Title	Scoring	Editor	Publisher	Holding	Price	Remarks
